

Unit 00_010 — Syllabus, Part 01

1. What days does this course meet? What time does it meet?
2. How does this class meet? (Put a ✓ next to the correct answer)
 - In the classroom
 - Entirely on Zoom
 - Mostly on Zoom, but we have to come to campus for exams and the final
3. When are my office hours? When is this in relation to class?
4. What is the URL for scheduling appointments?
5. What is the instructor's email address?
6. Are scheduled appointments online or in my physical office?
7. Is a free version of the textbook available?
8. Can you purchase a physical copy of the paper textbook?

Unit 00_020 Required Software & Hardware

9. According to the video, which **two** following things should you do before the first class meeting?
 - Install and test Zoom software
 - Apply for a student discount on JetBrains
 - Install Java 17
 - Install IntelliJ

10. Why do you need access to a printer for this course?
11. Do you have a scanner or access to a scanner?
12. If you do not have a scanner, then find a scanner app for your phone or tablet. Test it out. What software did you use (also specify Android or iPhone). Ignore this question if you have access to a scanner.
13. Why does the instructor recommend the use of headset for use during class?
14. After I made the video I realized that I had forgotten to say that you need a functioning webcam. It can be a builtin webcam on your laptop. It can be cheap as long as it works. Do you have a webcam?

Unit 00_030 Flipped Class

15. What is a "flipped class?"
16. When are the Notes pages due?
17. Why is it extremely important to have the videos watched before class starts on Wednesdays?
18. What will the main activity be during class on Wednesdays?
19. What should you do if you cannot answer a question on the Notes page?
20. How can you lose points on the notes pages? Are you likely to lose points for a wrong answer?
21. When are programming assignments due?
22. When is it OK to skip the Monday class?
23. Are there any topics you would like to see covered that are not in the syllabus?

24. Will class meet on days if the weather causes a class cancellation?

Unit 00_040 Zoom

The questions in this section don't necessarily go in order of the video. In this section, I suggest that you watch the video first, and then answer the questions.

25. Where do you plan to do zoom from for class?

26. Is the area you plan to use safe? Does it reveal anything you don't want to show?

27. Is the area you plan to use reasonably quiet? Are there things you plan to do to mitigate potential noise?

28. If you live with other people, will the area you plan to use protect their privacy? Will your location interfere with their lifestyle?

29. Is the light in front of you? Is there backlighting behind you?

Unit 00_050 The Syllabus

Go to the Syllabus in Canvas and answer the following questions.

30. What percent of the grade is each of the following items?

- Exams
- Programming Assignments
- Notes Pages
- Attendance and Participation

31. In order to get a grade of C or better in the course, you must have at least _____% of the points available in Programming Assignments.

32. Is there a penalty for late Programming Assignments and Notes?
33. Is there a penalty for missed exams?
34. If you must miss class due to illness, what documentation must you submit?

After you have completed all the answers, scan this document into a .pdf file, and upload the .pdf file to the CSC 187 course in Canvas.
