

Unit 01_010 — Settings

1. To get to the Settings when no project is open, first click on the _____ button on the left of the window, then click on the _____ button near the center of the window.

Unit 01_020 — First Program Setup

2. Should the name of the project be capitalized?

Unit 01_030 — The main class

3. In the space below, write the complete Java program. The name of the class is "Printing." The program should print "Hello."

4. If the public class name is "Printing" then what is the name of the file that contains the class (include the extension).
5. In Java, a *block* is enclosed in curly braces {}. How many blocks are in the Printing program?

Unit 01_040 — Printing

6. What is a "double quote" in Computer Science?
7. What is a "single quote" in Computer Science?
8. What surrounds strings in Java?
9. What is the newline character?

Comment from the instructor: \n is used in most modern computer languages for the newline character.

10. What are the three print statements in Java?

- _____
- _____
- _____

11. What is the difference between the `print` and the `println` statements?
12. What is the escape character for tab?
13. What is the escape character for double quotes? Why is it needed?
14. What is the escape character for the backslash?

Unit 01_050 — Debugging

15. What color mark is usually used for errors?
16. The video doesn't mention this, but why do you think that IntelliJ is so concerned about red-green colorblindness?

17. Are error messages accurate?

After you have completed all the answers, scan this document into a .pdf file, and upload the .pdf file to the CSC 187 course in Canvas.
